IRISCard™ Anywhere 5

You make contacts, it takes them home!

Full mobility is the word! The IRISCard™ Anywhere 5 enables on-the-go users to easily capture information from their business contacts when away from their computer. Ideal for today's mobile lifestyle, it turns contact management into a child's play.

The business card is simply zipped through the cordless, battery-powered scanner, and the scanned image is then either saved in the built-in memory, on an SD™ card or on a standard USB key. No driver installation is needed! Once back in the office simply insert the SD™ card into your computer, and the scanned business cards are automatically imported into the Cardiris™ Pro software for processing.

Key Features

Mobile business card scanner

- Cordless, battery-powered and very lightweight. No computer needed to scan.
- Scan up to 800 business cards per hour.
