Readiris™ Corporate 14
for Mac®

Free your business from paper.

Readiris™ Corporate 14 for Mac® is a powerful OCR solution designed for businesses. Thanks to Readiris™ Corporate 14 or Mac®, you will boost your company's productivity and save an incredible amount of time when converting batches of paper documents, PDFs, or image files into digital files you can edit, compress, search and share to the Cloud in a single click!

Key features

- Turn paper documents into editable, digital text (Pages®, Word, Excel®, OpenOffice, etc.).
- Create searchable PDF files up to 20 times smaller than the original images thanks to iHQC™.
- Worldwide OCR solution - 130 recognized languages (incl. Asian languages and Hebrew!).
- New OCR engine for faster processing and enhanced accuracy.
- Drop2Read™: Drag-and-drop OCR for easy processing.
- Batch OCR and document separation (barcodes).
- Watched folders for automatic documents processing.
- Powerful table recognition
- Recognize business cards thanks to the included Cardiris® Pro 4 software.
- Output connectors to the Cloud: upload to SharePoint®, Dropbox, Google Docs™ and Evernote™.

Key benefits

- **Easy-to-use text recognition & document archiving solution**
  Never retype any text and save a maximum of time to scan, recognize, convert and archive all your documents in just a single click.
- **Batch OCR and document separation**
  Separate your batches of documents using barecodes or blank pages. Readiris™ automatically recognizes and saves documents into specific output files.
- **Watched folders**
  Leave Readiris™ Corporate running day after day: any image files you place or change inside the watched folder will be automatically processed.
- **Drop2Read™ - Drag and drop OCR**
  Drag and drop your documents on the Drop2Read™ icon to perform your OCR tasks automatically.
- **Save directly into your favorite applications**
  Send the recognized documents into your favorite applications such as Pages®, Word®, Numbers®, Acrobat®, etc.
- **Revolutionary High-Quality Compression technology (iHQC™)**
  Create colored PDF files up to 20 times smaller than the original image size. Ideal for document archiving!
- **Extended support of portable file formats**
  Turn all your paper documents into searchable PDF files.
  Convert any PDF into editable text.
- **Output connectors to the Cloud**
  Easy integration with your favorite Cloud services. Upload to SharePoint®, Dropbox, Google Docs™ and Evernote™ in a single click!
- **Business card recognition**
  Scan your business cards and export your contacts directly into Address Book®.
- **Multilingual solution**
  The OCR engine recognizes over 130 languages and the user interface is localized in 13 languages.
