Key benefits

- **Automatically extracts data from scanned business cards**
Cardiris™ Pro 5 takes care of the retyping job for you!
- **Create new business cards from selected text**
Drag any email address or signature from any application and drop it into Cardiris™ Pro 5 to create a new contact.
- **Advanced image processing**
Improve recognition by adjusting brightness, contrast, despeckling and check the improvements in real time. Let Cardiris™ do the job for you, or adjust the scanned images manually.
- **Customizable fields and categories**
Add searchable, customizable fields and categories to your contact's data and export them in csv, xml, html, Excel® and Outlook®.
- **Contact management software**
Use Cardiris™ 5 as your major contact manager or choose to export the retrieved data into your favorite contact manager (Outlook®, ACT!®, etc.).
- **Powerful duplicates management tool**
Keep your business contacts up to date! Ask Cardiris™ to automatically compare all your business cards, and determine what info/contact you want to save, update or discard.
- **Easy export to Excel®**
Use all the retrieved information from your business cards in Excel®. Search and sort your contacts. Organize emailings and mail merges.
- **218 countries recognized**
No matter where your contact is from, Cardiris™ Pro 5 will recognize her/his business card in a snap!
- **19 installation and user interface languages**
The installation and user interface are localized in 19 different languages.

Minimum computer requirements

- Intel® Pentium® based PC or equivalent recommended
- Microsoft® Windows® 7, Vista® or XP
- 256MB RAM recommended
- 250MB of available hard disk space
- CD-ROM drive
