IRISCompressor™ Pro
for Mac®

You click, it compresses!

Based on I.R.I.S.' Intelligent High-Quality Compression technology, IRISCompressor™ is designed to convert standard documents images (color or black & white uncompressed formats, JPEG, JPEG 2000, PNG, TIFF, image PDF, etc.) into a new color or black & white PDF document of much smaller size (up to 20 times), fully compliant with any PDF viewer.
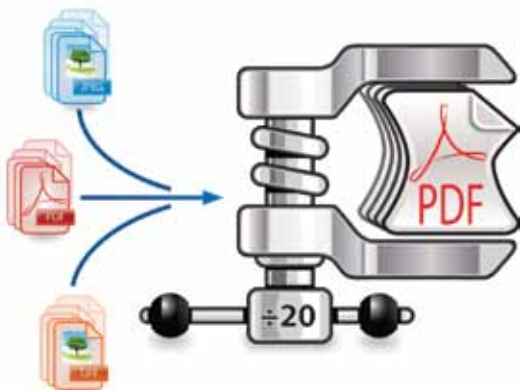

Key Features

- Drastically reduce the size of your image files in a single click (up to 20 times smaller than the original!).
- Create searchable PDF files without altering text resolution and legibility.
- Choose up to 5 different OCR languages (not simultaneously).
- Compress multiple image file types simultaneously.
- Merge documents /images into a single compressed PDF.
- Save money by reducing storage space and save bandwidth while sharing documents.
- Speed up large files transfer (quicker downloads and uploads).
- Compressed PDFs (iHQC™ technology) are fully compliant with any PDF viewer*.

* Adobe® Acrobat® Reader® recommended to view compressed PDFs on tablet PC, iPhone® and iPad®.

| Quick reference guide
