

# Readiris™ Corporate 14

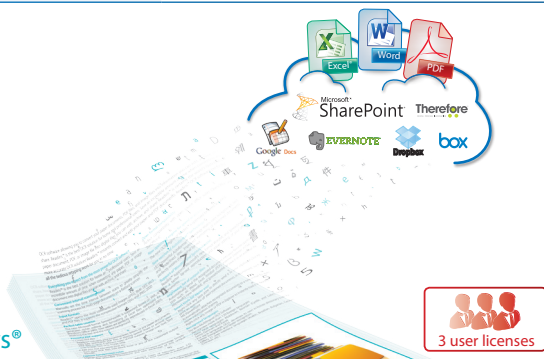

## Free your business from paper.

Readiris™ Corporate 14 is a powerful OCR solution designed for businesses. Thanks to Readiris™ Corporate 14, you will boost your company's productivity and save an incredible amount of time when converting batches of paper documents, PDFs, or image files into digital files you can edit, compress, search and share to the Cloud in a single click!

### Key features

- Turn paper documents into editable, digital text (Word, Excel®, OpenOffice, etc.).
- Create searchable PDF files up to 50 times smaller than the original images thanks to iHQC™.
- Worldwide OCR solution - 137 recognized languages (incl. Asian languages and Arabic!).
- New OCR engine for faster processing and enhanced accuracy.
- Improved multi-core CPU support and multitasks.
- New user-friendly interface (Office 2010 look).
- Batch OCR and document separation (barcodes).
- Powerful indexing tool (on-the-fly OCR).
- Watched folders for automatic documents processing.
- Improved OCR for camera pictures (3D correction).
- Output connectors to the Cloud: upload to SharePoint®, Therefore®, Dropbox, Box.net, Google Docs™ and Evernote™.
- Recognize business cards thanks to the included Cardiris® Pro 5 software.

Supported OCR languages	137 (complete list at <a href="http://www.irislink.com">www.irislink.com</a> )

## Key benefits

- **Easy-to-use text recognition & document archiving solution**

Never retype any text and save a maximum of time to scan, recognize, convert and archive all your documents in just a single click!

- **Batch OCR and document separation**

Separate your batches of documents using barcodes or blank pages. Readiris™ automatically recognizes and saves documents into specific output files.

- **Watched folders**

Leave Readiris™ Corporate running day after day: any image files you place or change inside the watched folder will be automatically processed.

- **Powerful indexing tool**

Use the "on-the-fly OCR" feature to easily extract any data from the scanned documents. This feature enables you to define the output file location, the subfolder as well as the file name, and to add keywords to optimize its indexing.

- **Revolutionary High-Quality Compression technology (iHQC™)**

Create colored PDF and XPS files up to 50 times smaller than the original image size. Ideal for document archiving!

- **Extended support of portable file formats**

Turn all your paper documents into searchable PDF, PDF/A and XPS files. Convert any PDF into editable text.

- **Output connectors to the Cloud**

Easy integration with your favorite Cloud services. Upload to SharePoint®, Therefore®, Dropbox, Box.net, Google Docs™ and Evernote™ in a single click!

- **Multilingual Solution**

The OCR engine recognizes 137 languages and up to 5 different languages on a single document. Its user interface is also localized in 28 languages including Asian languages, Russian and Arabic.

## Minimum computer requirements

- Intel® Pentium® IV PC or higher recommended
- Microsoft® Windows® 7, Vista® or XP
- 512MB RAM (1GB recommended)
- 120MB of available hard disk space
- CD-ROM drive
