

PRESS RELEASE

I.R.I.S. Morningstar Helps Vandelanotte to Monitor Efficiency

Louvain-la-Neuve, September 10, 2009 - I.R.I.S. Morningstar, a subsidiary of I.R.I.S. Group, listed on Euronext Brussels and specialising in Intelligent Document Recognition (IDR), Enterprise Content Management (ECM) and Optimized IT Infrastructure (ICT), has been selected by the Belgian accounting office Vandelanotte to implement its document management system.

Vandelanotte was looking for a solution to tackle the growing volume of poorly organised and saved documents in order to bring the efficiency of email management and creation of electronic dossiers in its eight offices up to standard.

Vandelanotte supports professionals in the field of accountancy, audit, tax & legal, management support and corporate finance. Hein Vandelanotte, partner at Vandelanotte: *"We worked with a different software package that was due for an upgrade; however, the system did not fully meet our requirements."* Meanwhile, Vandelanotte started their search for a better document management system in order to improve the efficiency of the primary process.

The most important reason why I.R.I.S. Morningstar caught Vandelanotte's interest was the poor organisation of their saved documents, especially in combination with – often – duplicate copies of emails. *"We had heard of WorkSite, via Leading Edge Alliance, an international association of accounting offices that we are members of. During a seminar, we were given a presentation of WorkSite and one of our IT managers was immediately impressed"*, says Vandelanotte. The office then contacted Interwoven, who recommended I.R.I.S. Morningstar as an excellent partner. In particular, the integration with Outlook is an extremely important function according to Vandelanotte. *"I very much like the extensive and solid email integration, as well as the fact that the solution is thoroughly assignment driven: not only work from files but also from assignments. I have no doubts about the cooperation with I.R.I.S. Morningstar: they have solid references in this field of work."*

"Replying, saving and searching for emails is taking up increasingly more time for the employees", says Dries Ausems, Business Development Manager at I.R.I.S. Morningstar. *"As the flow of information will only increase, we had to take action before employees became slaves to the system. One of the reasons why WorkSite is such an excellent tool is due to its ability to divide our time as efficiently as possible."*

About Vandelanotte

Managing a company in this day and age is a complex task. Entrepreneurs need more than a brilliant product and good service to be successful. More than ever, changing requirements and new expectations of authorities, shareholders, customers, employees and the general public have to be taken into account.

Only with an efficient company structure, are entrepreneurs able to flexibly respond to change. A healthy financial policy, a structured accounting organisation and strong administrative structure are a must these days. This involves paying attention to several other tasks in addition to the core business of the company.

Vandelanotte assists entrepreneurs with the development of a strong company structure that is ready for the current demands and the future norms. This enables the manager to focus on the really important factors, allowing time to do business.

Vandelanotte offers added value to business, advising in five areas, adjusted to the ambition and size of the company: accountancy, audit, tax & legal, management support and corporate finance.
