

## **I.R.I.S. serves Swiss law firm Lenz & Staehelin**

### ***I.R.I.S. best suited to act as implementation partner***

**Louvain-la-Neuve, March 18<sup>th</sup>, 2010** – The stock exchange listed company I.R.I.S., (EURONEXT Brussels: IRI), specialized in Intelligent Document Recognition (IDR)<sup>1</sup>, Enterprise Content Management (ECM)<sup>2</sup> and complex infrastructure for Information and Communication Technology (ICT)<sup>3</sup>, is pleased to announce that it was **selected by Swiss law firm Lenz & Staehelin to implement iManage WorkSite**, Autonomy's flagship document management solution for the legal and professional services markets. WorkSite will further improve the current tailor-made solution.

With three offices - in Geneva, Lausanne and Zurich - Lenz & Staehelin is Switzerland's biggest law firm. The firm specialises in all major areas of law and it was named "Swiss Law Firm of the Year 2009" (Who's Who Legal).

Lenz & Staehelin's current software solution includes among others conflict of interest, administration of mandates and billing, as well as accounting and document management. The firm was looking for a document management system which enabled them to save, search and retrieve the right information even faster.

Lukas Morscher, Partner and Head of IT, Telecoms & Media at Lenz & Staehelin was one of the partners involved in the evaluation process and managed the contractual part of the project: *"In our evaluation of a new document and email management system, it soon became clear that WorkSite iManage promises to best address our firm's needs. Our assessment of experience made by law firms abroad confirmed our first impression we gained from I.R.I.S. professionals that they would be best suited to act also as our implementation partner in Switzerland."*

*"In particular, the functionality in the areas of collaboration, portal access, knowledge and now also workflow, makes iManage WorkSite a popular system within the legal profession. Within all law firms we see that once the ease and efficiency of WorkSite is experienced, they don't want otherwise. The fact that the solution as well as I.R.I.S. was selected by this Swiss specialist within the legal profession is very gratifying,"* adds Dries Ausems, Business Development Manager at I.R.I.S.

Building on Autonomy's advanced Meaning Based Computing platform, Autonomy iManage offers the most comprehensive suite of information management applications on a single, common platform and is used by more than 1,400 law firms worldwide, including 75 of the top 100 global law firms.

---

<sup>1</sup> **IDR (Intelligent Document Recognition)**: automatic recognition of the content of structured (forms) or non-structured documents (incoming post, invoices etc.)

<sup>2</sup> **ECM (Enterprise Content Management)**: acronym for the technologies relating to electronic content management.

<sup>3</sup> **Optimized IT infrastructure**: "best-in-class" architecture for servers and digital storage, including consolidation and virtualization
