

## IRIS' mission:

IRIS develops portable scanners and conversion software that boost your productivity. Our offer allows you to scan, edit and share digital files. IRIS solutions will fit perfectly in a school or academic environment.

Whether you are a student, faculty or administrative officer, IRIS products will enable anyone to save precious time by transforming piles of paper into editable, archivable and shareable digital files. A great way to facilitate exchanges between students, parents and teachers. Thanks to IRIS, new possibilities open up for each actor of education.

## Assets of our products:

- Scan all your documents and convert them instantly into editable files (Word, Excel, ...)
- Scan any book or textbook and turn it into an e-book: the content will be read out loud to you (thanks to our text-to speech feature!)
- Never copy excerpts or quotes from books or magazines, scan them to get digital editable text
- Always have a scanner at your fingertips thanks to our smart colorful mouse-scanners & book scanners!
- Digitize your notes instantly with our digital pens: you will never have to retype your handwritten notes taken in class again!

## SOLUTIONS FOR STUDENTS & TEACHERS

Document to Knowledge™  
A CANON COMPANY

#1 in Portable Scanners & Conversion Software

## Boost your productivity with our products

Since I bought my IRIScan™ Book to work on my assignments, life is easy! I slip it in my bag every time I go to the library: I no longer need to borrow tons of textbooks, I just scan the pages I need. Once I get home, I upload those on my computer so that I can extract the content. Translation is done in one single click. The amount of time I'm saving is huge! This scanner is a real game changer for me. I highly recommend this product to any student who wants to work more efficiently!

Emily, BA journalism student

## Ideal solutions for teachers and students

I bought an IRISPen™ because my son just got into first grade and still struggles when reading. This product provides him valuable help when reading texts: thanks to the text-to-speech feature, he can listen to an 'audio preview' of each word's pronunciation. I think this product is just perfect for anyone dealing with a language-based learning disability. The IRISPen™ is a very interesting educational tool and I can only recommend it.

Marc, father of Pete, student struggling with dyslexia

## Our key products for students & teachers:

### IRIScan™ Book 5: scan & convert your textbooks!

Scan books and magazines anytime, anywhere without ripping pages off thanks to the brand new IRIScan™ Book 5. Just slip it into any handbag and carry it with you everywhere (classrooms, libraries, etc). A simple and great tool to boost your productivity!

### IRISNotes™ Air 3 : make your handwriting digital

During classes or simply at home: IRISNotes™ Air 3 transforms what you write into editable digital text. It recognizes any handwriting and transcribes it digitally with great reliability! Do not waste time typing your notes on your computer anymore, IRISNotes™ 3 does it for you!

### IRIScan™ Mouse 2: a powerful mouse-scanner

Thanks to IRIScan™ Mouse 2, you will always have a scanner at your fingertips! Just push on scan button and swipe over your document: the content will appear on screen and be extracted instantly. Save it as a JPEG/PDF file or as a fully editable Office file (Excel, Word).

### IRISPen™ Air 7: scan & extract any line of text!

Use IRISPen™ Air 7 like an highlighter : highlight any line of text and the content will automatically be digitalized. It allows you to instantly translate text in many languages. Use the text-to-speech feature to have the text read out loud to you. A useful tool in any classroom.

## Compact, ultra-portable scanners

I carry my IRIScan™ Anywhere 5 with me all the time. I use it to share my assignments, to organize my student records or simply to do my administrative work. It's become one of my favorite tool to use on a daily basis! The financial cost (and ecological cost!) of the tons of copies I made each year kept increasing. Not anymore: thanks to my IRIScan™ Anywhere 5; I scan, edit and share all my digital documents anywhere, at any time.

Julie, 3rd grade English teacher

## Perfect for scanning, editing and converting

My IRISNotes™ is very useful; it has all the characteristics of a normal pen but offers so much more! Whether it is for taking notes at meetings or simply writing in class, it digitally transcribes all my handwritten notes. I no longer waste time retyping everything on my computer; this pen recognizes my handwriting and turns it into text on Word! I then share this file via email to my colleagues, parents of students or to the principal. It's a small revolution in my daily life as a teacher!

Marie, high school teacher
