

I.R.I.S. Reveals the New Version of its Invoice and Form Capture Solution Directly Connected to Therefore™

Scanning invoices and forms to Therefore™ has never been so easy!

Louvain-la-Neuve, February 9th, 2010 – Under embargo until 5:45PM – During the breakout sessions of I.R.I.S.' annual convention *IRISLink 2010*, Therefore™ and I.R.I.S. jointly revealed and demonstrated **IRISCapture™ Pro 8.5 for Therefore™**, the new version of I.R.I.S.' powerful software suite to automatically scan, sort, index, capture data from, and archive forms and invoices, now directly connected to the Therefore™ Document Management Solution.

IRISCapture™ PRO 8.5
for Invoices

IRISCapture™ Pro 8.5 for Invoices is a powerful software solution programmed to scan, structure, and sort invoices and extract the data, so they can be imported into any accounting, ERP or workflow package ready to be edited, saving substantial amounts of time and money. IRISCapture™ Pro 8.5 for Invoices is able to capture any data from any type of invoice. Users can look over the scanned information and make any adjustments. Another major advantage of this application is the high level of compatibility it offers, the package being compatible with all top level professional scanners/printers, such as Fujitsu, Canon, HP, and Kodak. IRISCapture™ PRO 8.5
for Forms

IRISCapture™ Pro 8.5 for Forms is an intelligent software suite that automatically captures, sorts and identifies all types of documents and forms entering a company or organization, irrespective of their size, layout and content. It further extracts the documents' relevant data using I.R.I.S.'s in-house recognition technologies: OCR for machine printed information, ICR for hand-printed data, OMR for marks in check boxes, BCR for barcodes. The recognized data is carefully verified, validated and controlled – automatically and interactively - via a series of operating modules before an index file is exported along with the form image. The original paper-based data is quickly and safely converted into digital information that can be directly used in any content management application. IRISCapture™ Pro for Forms reduces data entry costs by up to 90 % and more, depending on the type of data to be read. It offers a highly scalable processing capacity, allowing the reading of several hundred thousand documents per day. [More](#)

The newly developed connector for Therefore™ applies to both versions of IRISCapture™ Pro 8.5. It was specifically developed for a swift installation and configuration, creating the perfect link so that the two powerful I.R.I.S. solutions are able to archive invoices or forms directly into the Therefore™ document management system.

Each document type, invoice or form, can be archived to a specific Therefore™ category. The indexes from each form type can be mapped to the Therefore™ fields from the target Therefore™ category.

Their very intuitive interface and easy-to-use Wizard get the user up and running in no time, and turn scanning and exporting batches of forms and invoices to Therefore™ easier than ever before!

Pierre De Muelenaere, President and CEO of I.R.I.S., stated, *“The IRISCapture™ Pro 8.5 for Therefore™ software suite will revolutionize the way businesses handle their forms and invoices. Thanks to this technology, users will save up to 50% on their invoice processing costs and also free up valuable manpower, making their office considerably more productive. He supported his point: “As a pilot project, we implemented this solution at Dudelange City Hall (Luxembourg). Thanks to I.R.I.S. and Therefore™, their tax property forms are now automatically processed and released to Therefore™, dramatically reducing the time of document treatment and enhancing the integrity of the extracted indexes.”*

“Therefore focuses on helping customers to work smarter by connecting people and processes to information”, said Michael Lebeda, President of Therefore. “We are very impressed by the efficiency and value created for customers by the combined solution of I.R.I.S. and Therefore”.

Availability

IRISCapture™ Pro 8.5 for Invoices for Therefore™ will be available for distribution on March 1st, 2010

RISCapture™ Pro 8.5 for Forms for Therefore™ will be available for distribution on March 1st, 2010

I.R.I.S.’ goal is to fulfill its customers’ needs and the price of the solution implemented depends on the amount of forms treated. Detailed product and pricing information can be obtained by [clicking here](#).

About I.R.I.S. - www.iriscorporate.com

The **I.R.I.S. mission** is to increase our clients' productivity and knowledge by helping them to better manage their documents, data and information.

I.R.I.S. Products & Technologies develops Intelligent Document Recognition technologies and products and markets its portfolio of products worldwide through solid partnerships.

I.R.I.S. Professional Solutions enables companies and government bodies to find in one company the innovative expertise and high-tech solutions to efficiently manage their documents, information flows and IT infrastructures.

In 2008, the I.R.I.S. Group achieved sales of 109.3 million Euros.

I.R.I.S. employs over 600 staff, based in Louvain-la-Neuve, Vilvoorde and Antwerp (Belgium); Orly (France); Windhof (Luxembourg); Amstelveen and Maastricht (Netherlands); Aachen (Germany); Delray Beach (Florida, USA); Hong Kong (China) and Oslo (Norway).
