

IRISnotes™
executive 1.0

I.R.I.S.' Revolutionary Mobile Note Taker Goes Mac!

The IRISnotes™ Executive 1.0 now turns your handwritten notes and sketches into digital data on your Macintosh

Louvain-la-Neuve, February 9th, 2010 – Under embargo until 5:45PM – I.R.I.S., a listed company (EURONEXT Brussels: IRI), specialising in Intelligent Document Recognition (IDR), Enterprise Content Management (ECM) and Optimized IT Infrastructure (ICT), is proud to announce the upcoming release of the *IRISnotes™ Executive 1.0* mobile note taker for Mac. The IRISnotes™ Executive 1.0 for Mac saves time and effort by transforming scribbled notes and sketches into editable text on a computer.

I.R.I.S.' newest product is simple to use. From a battery powered pen, hand movements are transmitted to a receiver clipped at the top of an ordinary page of paper. The receiver, storing up to 100 pages of text, is then connected to the computer where the IRISnotes Executive 1.0 software converts handwriting into electronic text that can be saved, edited, emailed and shared. The IRISnotes™ Executive 1.0 for Mac archives the handwritten text (retaining the writer's handwriting) and then processes the notes and exports them to TextEdit or, after a quick configuration, to standard word processing applications such as Pages, Word or the electronic mailbox.

IRISnotes™ Executive 1.0 for Mac can capture handwritten notes in up to 26 languages including English, French, German, Spanish, Italian, Chinese, Arabic and Russian to name a few. It is compatible with all latest Mac operating systems, including Tiger, Leopard, and Snow Leopard.

Furthermore, once the receiver is plugged into a computer, the pen can be set to mouse mode. Light and small in size, the digital receiver recharges automatically via a computer's USB port power supply.

Bernard de Fabribeckers, I.R.I.S. Sales Director, comments: "*Developing powerful and accurate solutions for Mac users is and has always been primordial for I.R.I.S., and our new product answers precisely these customers' specific needs. The IRISnotes™ Executive 1.0 for Mac is the ideal solution for those looking to take digital notes when away from their Macintosh. Whether you are a student taking notes in lectures or a professional taking minutes at a meeting, the IRISnotes™ Executive 1.0 for Mac means you won't need to spend hours typing up. All you need to carry with you is the pen and the receiver making it truly portable. Using our mobile note taker is as easy as putting pen to paper.*"

IRISnotes™ Executive 1.0 for Mac retails for 149€ and will be available on May 1st, 2010. For further information and samples, please contact Nicolas Moies-Delval at 0032 (0)10 487 456 or nicolas.moies@iriscorporate.com. You can also [click here](#) to discover our dedicated webpage.
