## Editorial

Dear Sir, Dear Madam,

In a world where the economic crisis is putting a lot of pressure on individuals, corporations and even governments, I.R.I.S. continues to focus on delivering products and solutions that help our customers work more efficiently.

You will find attached some examples of recent business cases that show how **intelligent document capture, enterprise content management and optimized IT infrastructure** can **make a difference**.

We will present our vision, new products, and many interesting solutions during our international event [IRISLink 2010](#) on 9th February, 2010 in Brussels.

You will find more information about this event in this investors' newsletter.

Do not hesitate to save the date, and register for the event on our website.

We hope to see you there!

We remain available should you have any questions.

Sincerely yours,

Pierre and Etienne

Pierre De Muelenaere  
President & CEO  
I.R.I.S. Group

Etienne Van de Kerckhove  
CEO

## IRISLink 2010: I.R.I.S. Annual Convention

How to face your major challenge:  
Do more with less,  
while reducing your carbon footprint

The IRISLink event is a key appointment for I.R.I.S., its partners, customers, providers and for all professionals involved in information management.

In the same day, you can meet the main actors of the **Document Imaging Industry**, specialists of **Enterprise Content Management** and experts in complex **IT infrastructure**.

In 2010, I.R.I.S. CEOs will outline, during their keynote, how to face some of the major challenges of companies:

- **How to do more with less:** in today's economic turmoil, organizations need solutions to increase their business efficiency, which is possible by leveraging I.R.I.S. innovations and unique know-how:
  - **Sharing, circulating and storing information** by using the right methods and tools can help companies reduce costs whilst increasing employee and customer satisfaction.
  - **Safeguarding the knowledge and expertise**, despite staff reductions due to reorganizations and demographic evolution, is business critical: using the right methods and tools makes a big difference.
- **Reduce your carbon footprint:** purchasers and users prefer companies that take into account their environmental impact and try to reduce it. Thanks to I.R.I.S., organizations can reduce their paper and energy consumption by creating and optimizing digital document processes, and virtualizing IT.
