## Key benefits

- **Easy-to-use text recognition & document archiving solution**

Never retype text from documents and save a maximum of time : Readiris™ scans, recognizes, converts and archives all your documents in just a single click.

- **Input formats:** JPG, GIF, PSD, PNG, TIFF, BMP, PDF, Scanned images (Image Capture) (TWAIN)

- **Output formats:** PDF, DOCX, XLSX, ODT, ePub, Audio, RTF, HTML, TXT, TIFF, JPEG, PNG

- **It recreates document layouts**

Readiris™ 16 for Mac not only extracts text from paper documents, images or PDF files, but also recreates their layout. Based on powerful page analysis technology, Readiris™ 16 for Mac detects the different elements of the original files (image, text, tables, fonts, paragraphs, etc.) and recreates them in the output format of your choice.

- **Export directly into your favorite applications**

Send the recognized documents to your favorite applications such as MS Office, OpenOffice/Libre Office suites and edit them instantly.

- **Revolutionary High-Quality Compression technology (iHQC™)**

Create colored PDF files up to 10 times smaller than the original image size. Ideal for document archiving!

- **Output connectors to the Cloud**

Easy integration with your favorite Cloud services. Upload to Dropbox, Box, OneDrive, Google Drive™ and Evernote™ in a single click!

- **Easily back-up your documents in the Cloud**

Readiris™ 16 for Mac, OCR software features a large set of Cloud connectors that will export your documents to the Cloud during the conversion process. No matter where you are, your documents will always be safely backed-up and easy to access!

- **A complete PDF toolbox Within PDF files**

Readiris™ 16 for Mac allows you to create, add, merge, delete, edit, rotate, compress, sign or straighten pages. It will also let you convert PDF documents to editable Word, Excel or even searchable PDF files in order to help you edit and manage information.

- **Extended support of portable file formats**

Turn all your paper documents into searchable PDF files.

- **Multilingual solution**

The OCR engine recognizes over 130 languages, making it a powerful international tool!

## Minimum computer requirements

- Mac® computer with Intel® processor
- Mac OS® X version 10.9 or above
- Minimum 400MB of available hard disk space
- Internet connection for software download and activation
